

# Ducted Controller Touch Pad

WI-FI CONTROL FOR FUJITSU DUCTED AIR CONDITIONERS\*

## EASY TO USE TOUCHPAD

Mounted portrait or landscape to the wall by a Fujitsu air conditioning specialist, the anywAiR<sup>®</sup> technology ducted controller is simple to set-up using a Google Play Store account. The touch pad is the central point from which to operate the air conditioner and can be used to manage a variety of Android apps such as weather, recipes, music and other home automation apps.

## SIMPLE CONTROL FEATURES

Basic control features of the anywAiR technology ducted controller touch pad include:

### AC Control

On/Off, fan speed, set point and mode

### Timers

Turn the aircon unit On/Off after a set time

### Scenarios

Program scenes through custom settings

**0-100%**

### Variable Air Volume (VAV)

Select the percentage of air flow for each zone

### Temperate Controlled (VAV)<sup>^</sup>

Control temperature and airflow in up to 10 zones

## WI-FI CONTROL

The Fujitsu General anywAiR technology ducted controller provides Wi-Fi control for Fujitsu ducted air conditioning systems via a wall mounted touch pad. Remote access is available using the anywAiR App, giving control of your ducted system anytime, anywhere with selected smartphone and tablet devices.

## PROGRAMMABLE SCENARIOS

Create up to 12 custom scenes to run a series of commands at the touch of a button or at a chosen time. Commands can include turning the unit on and off, changing the mode or temperature, and selecting which zones are open. Scenarios such as going to work, coming home and bedtime can be programmed to control the air flow and temperature to rooms required at set times.

## VARIABLE AIR VOLUME (VAV)

Variable Air Volume (VAV) control allows the user to select the percentage of air flow for each zone from 0 to 100 percent, in 5 percent increments. This gives you greater control of airflow to each zone to better meet your comfort needs.

## TEMPERATURE CONTROLLED (VAV)

Temperature Controlled (VAV) is available if optional temperature sensors are installed in each zone. This optional feature allows the user to choose the desired temperature for a zone and the system will automatically adjust the air flow to assist in maintaining each zones desired temperature.

## DOWNLOAD THE APP

### anywAiR<sup>®</sup> app

Remote air conditioner control

GET

- 1) Download the anywAiR App from the App store or Google Play
- 2) Follow the App configuration steps
- 3) Once set up, the anywAiR App interacts with the anywAiR technology ducted controller to remotely control your air conditioner

\*The anywAiR App is only compatible with a selected range of Fujitsu General ducted air conditioning when the optional anywAiR technology ducted controller is installed. It is not a standard inclusion when purchasing a Fujitsu ducted air conditioning system and must be installed by a Fujitsu air conditioning specialist. <sup>^</sup>Requires optional individual room sensors to be installed.

## LOCAL SUPPORT VIA FUJITSU GENERAL ASSIST

Fujitsu General's in-house customer care and technical support team, Fujitsu General Assist, offers a high level of technical and local aftersales support, to ensure your air conditioner and anywAiR technology ducted controller continues to run smoothly.

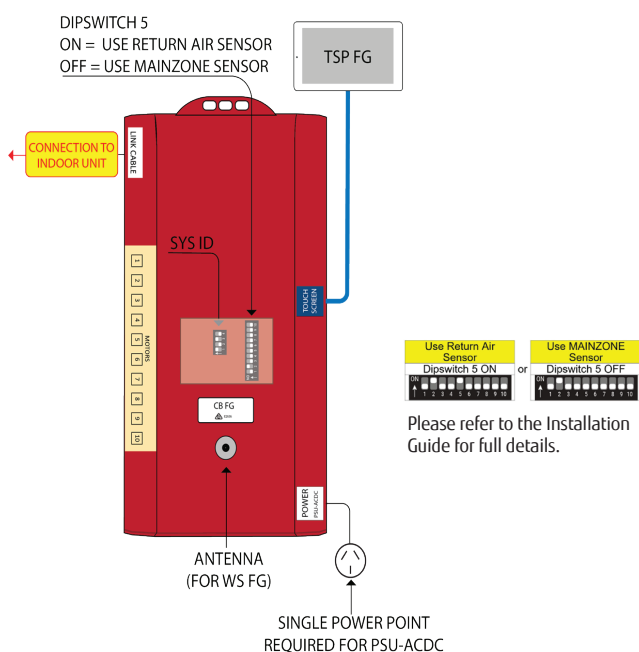

## 5 YEAR PARTS AND LABOUR WARRANTY

Fujitsu General Australia strives to consistently provide high quality, energy efficient, reliable products. The Fujitsu General anywAiR technology ducted controller comes with a 5 year parts and labour warranty for long-term performance and peace of mind.
